

# 42mm Diameter Round Capillary Pressure Indicator Clip In Panel Mounting

## Application

Suitable for heaters, ovens, boilers, refrigeration equipment or any apparatus where pressure needs to be read remotely.

These pressure indicators are typically used in many European domestic heating boilers.

## Description

**Nominal Size**  
42mm

**Accuracy**  
+/- 3% Full Range

**Scale**  
BAR Only (Black)

**Ranges**  
0/4 BAR Pressure  
0/6 BAR Pressure

**Mounting**  
Panel Mounting Only - Moulded integral clips

**Ingress Protection**  
IP 40 as per EN 60529

**Case & Bezel**  
White ABS / Nylon

**Window**  
Acrylic, Crystal clear

**Pressure Movement**  
CU Alloy - Sealed Bourdon tube C-Type

**Pointer**  
Plastic - Black

**Dial**  
Aluminium - White

**Capillary**  
PVC Sheathed  
Copper 1500mm - Rear exit

**Pressure Fitting**  
Brass 1/4" BSP (parallel) male (standard)

**Special Options**  
Other scales/ranges  
Other capillary lengths
